

SAFECON 2023

Sign-up Event Entry & Appointment Limitations

This table will list how many competitors from each school are allowed to compete in each of the sign-up events, and will stipulate how many appointments must be made for each event. If a school reserves more appointments than they are limited to under the following chart, ALL appointments for that school shall be canceled, without notice, for the affected event. As an example, if a school books two (2) appointments for the Preflight event instead of the permitted one (1), both appointments will be canceled. If you need to make changes, you must first cancel your existing appointment before scheduling your new appointment.

All questions should be addressed to the Chief Judge.
